We offer a regular weekly home delivery service in your area for all incontinence products.

A warm welcome

Established in 1992, **Dri-Line Services** is a family run business supplying a complete range of continence care products via a personal weekly delivery service in your area.

We believe that a good service, competitive prices and a long term personal relationship with our customers is very important, and we are committed to these values. Being one of the largest stockists we carry a full range of high quality washable and disposable incontinence products for both men and women - always available when you need them.

All home deliveries are carried out by our own mature and experienced driver. We are happy to accommodate specific delivery instructions, including key codes if necessary. You can also ask our driver to bring your goods in and put them where you need them. We strive to ensure that you have the same delivery driver every time you order, this helps us get to know any specific requirements you may have and means you see a familiar face each time.

A high proportion of our work comes through recommendations from our customers as well as social services, carers and district nurses. In 2009 we became a proud partner of **Saint Francis Hospice**, working together for our local community.

Levels of incontinence

Light incontinence

Also known as stress incontinence and is when a small amount of urine leaks out during physical activity, including coughing, sneezing & laughing.

Moderate incontinence

Also known as urge incontinence, when the bladder contracts involuntarily, leading to a loss of bladder control and not being able to reach the toilet in time.

Heavy incontinence

Large loss of urine and being unable to stop before losing a full bladder.

Bowel incontinence

Also called faecal incontinence and is the loss of solid or liquid stools or wind with leakage.

Lille small shaped pads

This range is designed for light to moderate incontinence. It provides anti-leakage security, discretion and comfort. Has a breathable waterproof backing and can be worn with close fitting pants or ventilated stretch pants (pages 4 & 5).

“I have had pads supplied by Dri-Line for many years. They are comfortable to wear and enable me to stay dry and carry on with life. It is easy to order and pay for them and they are always delivered on time. I would like to thank the staff for always being so kind and cheerful.”

Mrs C, Brentwood

Insert pads

Designed to be used in conjunction with Large Shaped Pads, Pull up Pants or Diapers, these pads act as an absorbency booster. They purposely do not have a waterproof backing which allows the insert pad to increase absorbency but not prevent liquid from also reaching the main product.

Absorbency	Product	Pack Qty	Price
	Mini insert: (490ml) Buy 4 packs and save £4.05	28 112	£3.95 £11.75
	Extra insert: (600ml) Buy 4 packs and save £4.60	30 120	£5.65 £18.00

“ I have found Dri-line Services a very efficient and helpful company. Deliveries are made on time, and there is always time to discuss the needs of the service users. Suggestions are made sensitively, and items can be tried to see if they are appropriate. If they prove to be inappropriate, then alternatives are discussed and the staff are always patient and willing to assist.”
